

Aravind-Chennai

Dr. G. Venkataswamy
1918 - 2006

The genius of the man was in using an adjective, 'needless' to give a context to the scourge of blindness.

It gave energy, hope and inspiration to scores of ophthalmologists to combat it.

*And for that and much more,
we celebrate his life.*

Workshop on Care and Maintenance of Ophthalmic Instruments and Equipment

June 23, 2018
at Aravind Eye Hospital, Chennai

Instruments and equipment form a critical component in any eye hospitals today. Many of the instruments and equipment are expensive and need sensitive handling. So it becomes essential that these instruments and equipment are maintained well in order to ensure smooth functioning of the hospital. This course is aimed to offer basic techniques that require performing basic maintenance and repair of ophthalmic instruments and equipment

NO REGISTRATION FEE

Online - Preregistration is essential by June 15th, 2018.
[please visit us](http://www.aurovikas.co.in/instrument2018/index.aspx)

<http://www.aurovikas.co.in/instrument2018/index.aspx>
